International Cancer Survivor Symposium 2022

Thursday, February 3, 2022, 8.30am – 5pm

Webinar

Dear Colleagues

Fast-evolving treatment options and technologies continue to advance survival in children, adolescents, and young adults diagnosed with cancer. The International Cancer Survivor Symposium will bring together primary care physicians, oncologists for adults and children, other specialty physicians, researchers, psychologists and allied-health professionals to discuss latest developments and future directions of care for cancer survivors. The program will focus on late effects, follow-up care and chronic diseases, fatigue, psychosocial aspects, and fertility.

We look forward to welcoming you to the first International Cancer Survivorship Symposium organized by the University Cancer Center Inselspital (UCI), the Department of General Internal Medicine, the Division of Pediatric Hematology and Oncology (all at the Inselspital, Bern), the Institute of Social and Preventive Medicine, University of Bern, and the Department of Health Sciences and Medicine, University of Lucerne.

The Scientific Committee

Prof. Dr. Maria Wertli & PD Dr. Christine Baumgartner
Department of General Internal Medicine, Inselspital Bern
Dr. Eva Maria Tinner & Prof. Dr. Jochen Rössler
